IEEE Strategic Goals

2015-2020

Expand and enable dynamic, nimble, flexible, and diverse communities to help individuals from around the world to share, collaborate, network, debate, and engage with one another.

Provide technically vital forums for the discussion, development, and dissemination of authoritative knowledge related to traditional technologies, while focusing more of our resources towards serving the professionals working on emerging and disruptive technologies.

Lead humanitarian efforts around the world to use technology to solve the world's most challenging problems.

Leverage IEEE's technology-related insight to provide governments, NGOs and other organizations, and the public with innovative and practical recommendations to address public policy issues.
