B.8 Industry Relations

- Two execom members from industry
- TENSYPMP 2024 will be hosted by the section for which proposal has already been approved where industry will be approached in big way to fund the event.
- 9th Dr R K Vir memorial lecture for 2022 was held on 4th January, 2023

B.9 Humanitarian Technology Activities

- Humanitarian Technology related activities supported by the Section including collaboration with other OUs.
- SIGHT Activities

In line with IEEE vision of penetration of technology across humanity, IEEE Delhi Section, through its SIGHT wing, is actively involved in reaching to the underprivileged and deprived section of the society. It is aimed at bringing overall life in their daily routine, which not only facilitates to connect them closer to the technology but also helps them, to the extent possible, to be closer to the mainstream. As a Community Service, SIGHT volunteers keep on choosing selected clusters of such sections of the society in and around the jurisdiction of the Delhi Section and undertake a variety of the activities/events for their overall welfare, upliftment and betterment.

A large number of activities were conducted during year 2023 under the chairmanship of Prof. A Q Ansari

B.10 Community Activities

- IEEE Social activities (Family day, IEEE day, Engineers Week)''
- 48th Foundation day –Pakhwara Celebrations of IEEE Delhi Section were held this year.

Many of the student branches associated with section celebrated IEEE Day and Engineers week. Details of the same are very much available in Vtools.

PART C – OTHERS

C.1 Special Events

Funding secured from the IEEE and external sources including sponsorships

C.2 Relationship with National and International Societies and Non-Government Organizations (NGO)

• Nature of relationship and details of any formal agreement signed—

IEEE Delhi Section supports and participates in the activities jointly organized by IEEE IETE and IEI. Chair and many EXECOM members attended the meetings of IETE and IEI and provided financial assistance for IEI activities on 4th Jan 2023 for conduct of R K Vir memorial lecture.

• Benefit to IEEE members

The entry was free to nominated IEEE members in all Technical seminars jointly organized.

• Benefit to Section (for example help in membership development, venue facilities, cost-saving etc.)

IEEE as a brand got a lot of visibility with these initiatives and membership count increased almost by close to 100 %..

C3. Collaboration with other IEEE Sections |

Section usually collaborates with other sections in nominating volunteers for any students activities. List of awards mentioned in section B provides many details for the same.

C.4 Support extended to Sub-sections & Society Chapters within the Section

Details are mentioned in the attached Finance report. Not being mentioned here due to paucity of space.

C.5 Best Practices of your Section (which you would like to share with other Sections for the benefits of members)

There is a lot of emphasis on regular reporting of the activities in VTools and also discuss about the same in every execom meeting. Section execom members are very closely bonded.

C.6 Problems anticipated and suggestions for solutions, if any

Problem of poor attendance in execom meetings has been circumvented to some extent. But, non reporting of activities in V Tools still remains a challenge. We are going to have some kind of rewards for chapters which will be reporting maximum number of activities in VTools to resolve this issue and also regular reporting of the same will be done in execom meetings as written in C.5

PART D - GOALS AND PLANS |

D.1 Continuation of project/activity in progress and their implementation plans

Second edition of DELCON has been organized this year. There is plan to make it a regular feature and make it a very high class and much sought after conference in time to come.

Industry awards need to be strengthened so that more worthy nominations may be brought in.

D.2 Goals and Future Plans

“Last one year has been very productive for IEEE Delhi section. During this year, we hosted IEEE President, Prof. Saifur Rehman and also held many activities for Life Members. After many years, we could hold an ExeCom meeting in Jaipur, outside of Delhi. I would like to continue with all the best practices of the section. We are going to host TENSYP2024 during 27th to 29th September and team of volunteers is fully geared to make it a huge success. Besides that, I would like to reiterate my last year’s vision as well that

is to empower and inspire the IEEE members to reach new heights in their respective fields of work, to foster a culture of creativity and innovation in technical and professional activities of IEEE, to promote effective inter-society collaborations, to mobilize growth in the IEEE membership and its up-gradation and retention. In order to accomplish this vision. I would create a team of active volunteers to closely interact with the institutions and commerce to become vibrant and organize several quality activities at their own place and also to participate in the activities conducted by the Section. A mechanism would also be developed to reward the volunteers for their active participation.”

- Prof. A Q Ansari,
Chair, IEEE Delhi section

D.3 Any innovative ideas to make IEEE more creative and value added for sustaining the membership retention and recruitment goals.

Regular reporting and followups may play in ensuring a continued interest of the members.

D.4 Business Plan for Sustainable Growth and Financial Stability.

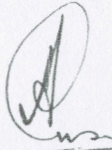

Section is quite self-sustainable as of now.
